

# How To Avoid Costly Mistakes, Ruined Paving & Unhappy Customers

## Aqua Shield HD

### The Perfect Concrete Paving Sealer

**Aqua Shield HD** is a specialised fluoropolymer penetrating sealer that utilises the latest advancements in nano technology. It penetrates and bonds with surface pores, leaving an invisible, breathable, protective barrier against oil and water based staining.

### Performance Benefits of Aqua Shield HD

- ✓ Superior oil & water repellence and stain resistance
- ✓ Transparent, minimal change in surface appearance
- ✓ Will not crack, fade, peel, delaminate, become patchy, yellow over time or show wear marks.
- ✓ Non-film forming, substrates remain breathable
- ✓ Reduces efflorescence and salt attack
- ✓ Durable and long lasting
- ✓ Does not alter the coefficients of friction or slip factor.
- ✓ Reduces algal, mould and mildew growth
- ✓ Keeps surfaces looking new for longer and increases ease of cleaning

### Application Benefits of Aqua Shield HD

- ✓ Water based, Non-Flammable, Odorless, No toxic fumes.
- ✓ Can be applied while surface is still damp.
- ✓ Only one flood coat application with quick dry formula - finish jobs faster and less inconvenience to customers
- ✓ No time consuming build up or clogging of equipment, just rinse with water
- ✓ Perfect for indoor & outdoor surfaces, including walls, kitchens, pool surrounds, garages, entertaining areas, patios, pathways and all types of tile surfaces
- ✓ Suitable for residential & commercial applications
